

# Modular Pull/Push Button Handle Product Families

## TriMark Corporation

Introducing TriMark's Modular Family of Pull and Push Button Handles. Providing the same mounting and space claim, OEM's can now offer different levels of features within a Pull or Push Button Product. Ranging from a basic mechanical handle, up to a full e-LOCK Handle with capacitive sense, both families offer good/better/best functionality.

### 040-0870 Power Locking Push Button Handle with Capacitive Sense (PKE)

- Similar to 040-0850, adds Integrated Capacitive Sense and Passive Keyless Entry
- Provides 'Wake' functionality for system
- Exterior antenna is energized to initiate sequence
- If FOB serial # matches, handle unlocks
- Powerlock motor integrated into handle

### 040-0850 e-Lock Push Button Handle

- Provides automotive function and convenience to your cabs and enclosures by adding power locking self-contained motor - provides remote locking
- Allows power locking/unlocking via a switch, or keypad
- PTC overload to protect motor against excessive heating
- Provides mechanical lock override with key in case of power disruption

### 040-0810 Push Button Handle with State Sensing

- Includes an integrated switch that indicates electrically the door lock status

### 040-0800 Push Button Handle

- Standard Product offering - basic function
- Button is rigid when locked

### 020-0870 e-Lock Pull Handle with Capacitive Sense (PKE)

- ◆ Similar to 020-0850, adds Integrated Capacitive Sense and Passive Keyless Entry
- ◆ Provides 'Wake' functionality for system
- ◆ Exterior antenna is energized to initiate sequence
- ◆ If FOB serial # matches, handle unlocks
- ◆ Powerlock motor integrated into handle

### 020-0850 e-Lock Pull Handle

- ◆ Provides automotive function and convenience to your cabs and enclosures by adding power locking self-contained motor - provides remote locking
- ◆ Allows power locking/unlocking via a switch, remote RF Fob or keypad
- ◆ PTC overload to protect motor against excessive heating
- ◆ Provides mechanical lock override with key in case of power disruption

### 020-0850 Mechanical Pull Handle

- ◆ Standard Product offering - basic function
- ◆ Includes ergonomic gas-assist molded handle
- ◆ Utilizes TriMark's KeyOne Plus locking system
- ◆ Handle is rigid when locked

### 020-0800 Surface Mount Pull Handle

- ◆ Standard Product offering - basic function
- ◆ Most Compact Design
- ◆ Provides for greater ease of operation (ergonomics) than conventional push button or paddle handles
- ◆ Handle is rigid when locked

Modular Product offering provides the OEM to offer customers different levels of Features/Benefits in a Pull Handle Family.

◆ Good/Better/Best

◆ All products have the same mounting pattern - provides standardization across OEM platforms and allows for upgrades and model differentiation.
