

TriMark® e-ASK Systems **electronic Access & Security Keyless-entry**

TriMark has expanded its door systems expertise by adding electronic control to its product offering. The addition of keyless electrical products adds further functionality, convenience, productivity and security to our systems. This selection of compatible components allows for complete keyless entry for on or off-highway vehicle applications.

TriMark's e-ASK (e**lectronic** **A**ccess & **S**ecurity **K**eyless-entry) provides an e-FOB RF transmitter/receiver and/or a 5-button e-PAD for true keyless operation.

Your choice of several systems can provide basic entrance door lock/unlock or additional control of compartment doors, windows, ignition, lighting, pneumatics, hydraulics, horns, and sirens plus other security systems. Additional functionality can be realized to suit your special requirements via customization of internal settings and software.

TriMark ADVANTAGE:

- Advanced technology expertise
- Patented products
- Rugged and reliable systems for on and off-road applications
- Full service supplier
- Excellent design and applications support
- Integrated systems approach
- Global presence
- Ability to integrate with security systems
- Compatible with CAN SAE J1939, RV-C, and other multiplexing protocols

Entrance doors, compartment doors or baggage doors, RF transmitter FOB, keypad or both...now you can have it all. Keyless convenience and security from a simple push of a button. You can count on TriMark to be your partner in keyless-entry integration.

High Value

500-1100 e-FOB System

This cost-effective, simple, and integrated system offers increased security, convenience and functionality with reduced system installation and lower installation costs for demanding users of RV's, heavy trucks, emergency vehicles, agricultural and construction equipment.

Base system provides added convenience and security via a standard remote radio frequency (RF) transmitter providing automotive convenience to your vehicle.

550-0100 Power Lock Actuators

TriMark has several high quality power door lock actuators available with a variety of features and configurations. The actuators have been tested and validated to meet stringent requirements thus ensuring a long life of trouble free operation.

Increased Functionality

500-1200 e-PAD System

This integrated system offers increased security, convenience and functionality with reduced system installation complexity and lower installation costs for demanding users of RV's, heavy trucks, emergency vehicles, agricultural and construction equipment.

User friendly keypad system provides visual, audible and touch feedback. Keypad can be mounted horizontally, vertically, and with means to protect against vandalism and other tampering.

Premium Features

540-0200 Lighted Grab Handle With Keypad (e-GRAB)

The e-GRAB incorporates TriMark's e-ASK keypad into a stylish entry assist handle for RV coaches, motor homes and travel trailers. Offering increased end-user convenience with premium look and feel, the grab handle provides keyless entry, security, and convenience through a keypad electronic interface. Integration of an optional doorbell is available.

500-1000 e-ASK System

TriMark's top level e-ASK system consists of a selection of compatible components that allow for complete keyless entry for on or off-highway vehicle applications. The incorporation of keyless-entry into TriMark mechanical latches, handles and systems provides additional security and convenience for access door systems. This system includes both a touch pad and remote fob transmitter for the ultimate in end user convenience and functionality.

Options

There are numerous options available to allow the e-ASK systems to provide extra value and functionality. Here is a partial listing of what's available:

- Optional kits can include: wiring harnesses for all connection points of system, extra relays, switches, door contacts, actuators, mounting hardware, mounting brackets, door latches, and door paddle handles

- Customized wiring harnesses
- Additional FOB transmitters and custom graphics
- Different programming functions allows for customized functionality with e-FOB or e-PAD outputs including standard mode, cargo mode or sustained mode
- Security system integration
- Multiplexed or discrete communications
- Electronic accessories

The following TriMark products are power lockable and are compatible with the e-ASK Systems. Please inquire about TriMark's ability to assist in the system design and product selection that is right for your requirements and needs.

Entrance Door Applications

Compartment and Baggage Door Applications

System kits are available and include handles, latches, remote transmitter FOB's and power lock actuators to provide a comprehensive access solution.
