

New Suite of Access Hardware

TriMark introduces New Suite of Access Hardware with complimentary look and feel: **TouchOne**

TriMark Corporation

These multi-family access products utilize shared styling cues to infuse your cab and enclosures with a contemporary look and feel. The aesthetic design elements have been specifically developed to provide customers with a very comfortable and tactile feel for the door and window touch points.

Access to Excellence

040-7400 Push Button Handle

This new Push Button Handle is specifically designed for off-highway vehicle applications that require a surface mounted exterior push button handle. It offers robust construction, ergonomic function and modern styling that compliments your vehicle (currently under development).

020-0825 Surface Mounted Pull Handle

This new Surface Mounted Pull Handle is a redesign of our popular 020-0800 Pull Handle and is designed for medium to heavy-duty agricultural and construction personnel doors. Offering a clean, modernized style, it features more robust mounting and KeyOne Plus locking (currently under development).

020-7910 Remote Squeeze Release

This new Remote Squeeze Release was specifically designed for off-highway vehicle applications including agricultural and construction equipment that requires a remote inside release. The robust construction is incorporated into either 25 or 32mm round tubing for support for the opening and closing functions of the door and provides for greater ease of operation.

010-7300 Window Handle

This new Rotating Window Handle is designed to fit comfortably in the hand for top and side hinged windows for on and off-highway vehicles. It features single or two position secure latching with a reverse mounted base and an optional glass clamp for a clean and easy installation.
