

# TriMark's e-ASK System

electronic Access & Security Keyless entry

## TriMark Corporation

TriMark's e-ASK keyless entry systems adds further functionality, convenience, productivity and security to your Access Door System. Your choice of several systems and components can provide 'state of the art' automotive style passive keyless entry and keyless push button start or basic lock/unlock. Additional functionality includes the control of compartment doors and hoods, windows, ignition, lighting, pneumatics, hydraulics, horns, and sirens plus other security systems.

### 500-1300 e-ASK PKE System (Passive Keyless Entry)

TriMark's third generation of e-ASK Systems consists of a selection of compatible components that allow for complete keyless entry for on or off-highway vehicle applications. It features Passive Keyless Entry (PKE) and offers optional vehicle mobilization/immobilization and keyless push button start. These are the same 'state of the art' electronics that are featured on higher end automobiles and is now available for integration on your vehicles.

### 500-1200 e-ASK RF and Keypad System

TriMark's mid-level e-ASK system includes a user-friendly keypad to the RF system which offers increased security, convenience and functionality for the ultimate in keyless entry. The keypad provides visual, audible and touch feedback and can be mounted either horizontally or vertically.

### 700-0100 Power Cinching Strike

TriMark's Power Cinching Strike is designed for large, heavy and hard to close doors and windows that have difficulty closing due to higher door seals, air compression or pre-bowed glass. The power cinching function is completed in a slow and smooth operation using a robust electric motor drive instead of relying on a door slam to fully latch and close the door.

We invite you to check us out and see why TriMark is the leading global door solution provider offering **Global Reach**, **Global Support** and **Global Supply** of access door systems with products that are **Designed** for you, **Built** for you and **Secured** for you.

**TriMark**  
*48* Years

1971 - 2019

## The TriMark Advantage

- Advanced technology expertise
- Rugged and reliable systems for on and off-road applications
- Full-service supplier (integration with mechanical systems)
- Excellent design and applications support
- Integrated systems approach
- Compatible with CAN SAE J1939, RV-C and other multiplexing protocols

### 540-0100 e-PAD Keypad

This cost-effective, simple, and integrated system offers increased security, convenience and functionality with reduced system installation complexity and lower installation costs for demanding users. Offering visual, audible and touch feedback, this user-friendly keypad can be mounted horizontally or vertically, and provide means to protect against vandalism and other tampering.

### 550-0100 Compact Style Power Lock Actuator

TriMark's Power Lock Actuator has been tested and validated to meet stringent performance requirements thus insuring a long life of trouble-free operation. It is provided with thermal protection for excessive heating due to extreme usage as rapid, frequent operations or sustained activation as well as a varistor for electrical transient noise reduction. A clutch mechanism provides for soft starts/stops and allows for manual override with key.

### Options

Options can include wiring harnesses for all connection points, extra relays, extra FOB's, custom graphics, rocker switches, door contacts, security horns, power lock actuators, mounting brackets and hardware, door latches and door handles. Custom functionality can be facilitated with software programming to include specific inputs and outputs as well as security system integration.
