EDITION 21 NOVEMBER 2019

TriMark is exhibiting at Agritechnica 2019, the world's largest trade fair for agricultural machinery, which takes place on November 10-16 at the Hannover Exhibition Park in Germany. We would like to invite you to Hall 05 Stand E16 to see why TriMark is the leading global door solution provider offering **Global Reach**, **Global Support** and **Global Supply** of access door systems.

Please note that we are co-located in the United Kingdom pavilion, below is a graphic that shows our location:

Exhibits will include several interactive demonstrations of TriMark's mechanical and mechatronic products access solutions. We are excited to show our latest electronic keyless entry, keyless start and immobilization system 500-1300, we are also showcasing our latest New Suite of Access Hardware named TouchOne, have on-display three popular access systems that range from simple compartment solutions up to several full personnel door solutions and are showcasing our latest Modular Pull Handle Family.

With an anticipated crowd of over 460,000 participants and 2,800 exhibitors from over 130 countries, this show is a must see. If you would like to see a full demonstration of TriMark products or would like to discuss your specific applications, please contact Richard Footer, European Sales Manager at sales@trimarkeu.com to set-up an appointment.

**AGRI
TECHNICA**[®]
THE WORLD'S NO. 1

2019

10-16 NOVEMBER, HANOVER, GERMANY
PREVIEW DAYS 10/11 NOVEMBER

Additional Product Information follows:

Passive Keyless Entry (PKE)

Featuring Passive Keyless Entry (PKE), this "State of the Art" system offers optional vehicle mobilization/immobilization and keyless push button start. This is the same electronics that are featured on higher-end automobiles and is now available for integration on your equipment.

TouchOne

Our latest New Suite of Access Hardware named TouchOne utilize shared styling cues to infuse your cab and enclosures with a contemporary look and feel. The aesthetic design elements have been specifically developed to provide customers with a very comfortable and tactile feel for the main door and window touch points. These multi-family access product selections include a Push Button or Pull Handle, Interior Squeeze Release and a choice of either a Rotating Rear Window Handle and an Over-Center Window Stay.

Integrated Access Systems

Designing and implementing a full door system solution requires a wide-range of high-quality products working together to form a rugged, reliable system. We have on-display three popular access systems that range from simple compartment solutions up

to several full personnel door solutions that set the standard in excellence, design and value in the field.

Modular Pull Handle Family

Another new concept on-display is TriMark's Modular Pull Handle Family that offers the OEM different levels of features/benefits ranging from the most basic mechanical function all the way up to an e-Locking capacitive sense version for passive keyless entry. Providing the same mounting and similar space claims, this family of six products provides for standardization across OEM platforms, good/better/best functionality and allows for product differentiation and upgrades.
