Efficiency**

Robust modular systems designed to simplify installation and reduce assembly complexity.

**Secured for
Confidence**

Reliable security and access solutions engineered for toughest environments.

What's NEW from TriGuard

We are excited to feature our latest Heavy-Duty Door Modules. Building on the success of the 100-4100 TriGuard Heavy Duty Door Module - V2, we have two additional systems; the 100-4125 features a simplified design with plastic covers saving weight and overall cost. Named Salus, the mounting holes, handrail, latch position and overall functions are identical to the original V2. Additionally, the 100-4150 is called Fortis and offers an inside lever handle for blast lock activation. Both of these new systems will be showcased on a full-functioning cab.

100-4125 SALUS

100-4150 FORTIS

We will also be showcasing various TriGuard line of heavy-duty latches, linkages, and handles that are specifically developed for heavy duty armored vehicle application to provide a comprehensive access solution.

TriGuard's Product Line

Interested in viewing our full-functioning cab?

If you would like to see a full demonstration of the new Heavy-Duty door modules in action or discuss your specific applications, please click on set-up an appointment below!
